Warning: FossHub Apparently Hacked, Audacity DLs Affected

JohnTHaller**Aug 2016**

According to GHacks and other sources, FossHub was hacked. Downloads of ClassicShell and Audacity were both affected. Both Audacity and ClassicShell use FossHub as official download mirrors. The included malware will wipe your MBR rendering the PC unbootable.

Yes and the Audacity Team put a lot of work in yesterday to mitigate this - see the Audacity Website:

<http://www.audacityteam.org/>

and in particular:

Thanks for the heads-up post though,

WC
